

CLIENT EXPERIENCE

WHAT

Finance

In 2013, the \$1.5 billion Allnex Company was created when Cytec divested its resin business to a private equity investor. The Headquarters was moved from the US to Europe and they were faced with inheriting a complex landscape of legacy IT-systems that needed to be carved out from the original company and transferred under the new ownership.

Allnex and Itecor's partnership was a key success factor for implementing the appropriate solution. "Itecor is the right partner for us as they have excellent process skills, the right mindset, are flexible, and are customer-focused" commented Mr. Wim Vanderpoorten, IT Director at Allnex.
